### We Need Monitors!

Have you ever wondered how to become a monitor at the club?

Just call Joan at [1-520-419-0438](tel:1-520-419-0438), and she will make sure you are working in no time.

To our current monitors, we all owe you a huge **THANK YOU** for your volunteer hours! Without you, the club could not be open. Our staff dwindles at this time of year due to the flight of our snowbirds, illness, etc. so we are asking you to consider filling in those "Need Monitor" spaces on the calendar, working two or more shifts per month, and taking morning shifts in the Summer if you usually work only afternoons in the Winter.

Thanks again,

Bob and Joan

Our last Travelogue of the season was a block-buster! Those able to come learned a lot from Russ and Blythe Carpenter about Morocco and about technique, variation of presentation, and obtaining a quality tour guide. Our relationship with France over the decades was portrayed by Don Spear's "Travels along the Seine". Don Lovely gave us an absolutely lovely bird portrait guide-birds in their habitats from Arizona to Montana. Marilyn Scase took us on a tour of Norway...beautiful fiords, ancient sights. Thanks to each of them, and to our other presenters throughout this season, for sharing their travels and their photography work.

Next Travelogue will be November 14, 2017.  
Happy Trails Till Then!

## Mounting Prints On Foam Core Video

You've seen prints mounted on Foam Core in Camera Club displays. Members have been asking for classes or instructions on how to create the lightweight and inexpensive mounts. Thanks to the Multi-Media Special Interest Group, the Camera Club now has an instructional video available that demonstrates the process.

This link will take you directly to the Video:
