**BIG TEN WEEK CLASS
2017**

The Green Valley Recreation Camera Club is again offering their "Ten Week Photography Class". The class is designed to take participants from the absolute basics of using a digital camera to more artistic aspects of digital photography. Each session is repeated on each [Wednesday at 1:30 PM](#), [Thursday](#) and [Saturday at 9:30 AM](#).

Participants register for a specific day of the week and will attend sessions on that day. For example, a participant who registers for The Ten Week Class on [Saturday](#) will attend each [Saturday](#) for 10 weeks. The links below can be used to register for the class:

January Speaker

Don DuDeVoire

January 19, 2017 @ 1:30pm

Don has been taking photographs for more than sixty years, and flower photography for more than twenty-five years. A club member since 2000, he was a faculty member of the original “Ten Week Photography Course”. He has continued to teach a variety of topics ever since. He started taking flower images after seeing photographs by Canadian photographer Freeman Patterson. “After seeing his book I bought an orchid at a supermarket, stuck it in a vase, and started shooting film, and I haven’t stopped”. Don has taken flower photographs from the shores of Cape Cod to the deserts of California, and a lot of states in between. Don’s advice for getting good flower images is to never stop looking, and avoid strong winds.
